

## Curt Christensen

It has been said that Education is power. It is applied education that is the true power. Curt Christensen's implementation of the NYLIC University Training Program in the Nebraska General Office is focused on putting knowledge to work to help the agent achieve the success he or she is working to accomplish. "*Giving You the Power to be Your Best*" is the philosophy of the Training Department and all systems are dedicated to achieving that end. The success of the program is determined by the success of our agents.

### Experience

Curt joined New York Life in May 2007. He was promoted to Development Manager in July 2008. Previous to New York Life, he was with Principal Financial Group as a Development Director. He brings many years of insurance and financial knowledge to the Nebraska General Office.
